

NovoCare®

What is NovoCare®?

NovoCare® is Novo Nordisk's go-to resource for all U.S. affordability and access patient support programs.

Patients have to provide some basic information—what insulin they use, what kind of health care coverage they have—to find options that fit their specific situation.

What information does it contain?

By visiting [NovoCare.com](https://www.novocare.com) or calling 1.844.NOVO4ME (1.844.668.6463), a patient can:

- Register for available commercial **copay savings cards**
- Access applications for our **patient assistance program**
- Register for the **My\$99Insulin** program
- Learn about our commitment to affordability
- Get information about where to find **\$25** human insulin
- Find out if the medicine they were prescribed is **covered** by their insurance and how much they can expect to pay

Health care professionals can view available options, as well as initiate prior authorization submissions.

Is it available for patient use?

Yes, patients can access NovoCare®.

Who do I contact if I have affordability questions?

We encourage those in need of help to visit us at [NovoCare.com](https://www.novocare.com) or call us at 1.844.NOVO4ME (1.844.668.6463) for more information.
